Erez,

I would like to thank you and your staff for helping us with our shipping needs to Israel. From the very beginning, you have provided a high level of service. Your patience and knowledge helped make this whole process smooth and stress-free. Your estimate of our space needs was extremely accurate.

The workers who wrapped and boxed our fragile belongings and furniture and loaded the container were extremely capable and sensitive to our needs. They worked with us from the minute they got to us until the time the container was closed. They were clean, personable, and a pleasure to work with.

We highly recommend Dolphin to others who have international shipping needs. Once again, thank you for your excellent service.

Regards,

Ira
